School plan 2015 – 2017

Jennings Public School 2223
School background 2015 - 2017

School vision statement
Every student that attends Jennings Public School will have the opportunity to achieve their personal best through engaged, active learning in a safe, respectful and supportive school environment.

This will be achieved through:
- High expectations of both students and staff.
- The delivery of high quality teaching and learning programs which are engaging and relevant to student’s needs and prior learning.
- Increased opportunities for community engagement in the school through extra-curricular activities.

School context
Jennings Public School is a small PP6 school with 14 students. It is located 18 km north of Tenterfield on the New England Highway on the NSW and QLD border. Jennings Public School is part of the Border Community of Schools, which includes schools in Tenterfield, Mingoola, Deepwater and Bonshaw.

Jennings Public School is involved in the Early Action for Success program which is dedicated to early intervention for students identified as at risk in the early years of schooling. We have one full-time teaching principal and one full-time classroom teacher operating two literacy and numeracy groups K-6. Individual programs are in place to maximise opportunities and improve outcomes for all students.

Jennings Public School is well resourced with a full connected classroom package, an additional interactive whiteboard and video conferencing equipment and laptops and iPads for each student.

The spirit of a small school community fosters individuality allowing input from the students which creates responsibility for their learning and respect of others thus creating an environment of relevance and enjoyment.

School planning process
A variety of formal and informal processes were used to develop the school vision and strategic directions for Jennings Public School.

- Information and consultation evening for parents and community members.
- A survey was sent home to parents asking them identify 3 areas of success, 3 areas of improvement and anything else parents wished to share.
- Informal meetings and discussions with parents at school drop off and pick up.
- Community meetings
- Staff consultation in the form of discussions during staff meetings.

As a result of these consultation processes the following strategic directions were developed:

Student Learning – Students are successful, motivated learners and active and informed community members.

Staff Development – Staff leading innovative practice, learning about what works and connecting with others.
Purpose:
To provide a stimulating learning environment to create students with a high level of understanding and expertise in all areas of learning. To foster a sense of self-worth and belonging in all students both at school and in the wider community.

Purpose:
To develop a culture in which staff members are actively engaged in ongoing learning, strive for improvement and are able to make strong connections beyond the school.
Strategic Direction: Students are successful, motivated learners and active and informed community members

Purpose
To provide a stimulating learning environment to create students with a high level of understanding and expertise in all areas of learning. To foster a sense of self-worth and belonging in all students both at school and in the wider community.

People
Students: Levels of achievement in all curriculum areas will be improved through the development of engaging, differentiated teaching and learning designed to meet the needs of all individuals.
Students: K-6 students contributing to the direction of their learning to ensure focused experiences and individualised learning.
Staff: Develop teacher’s deep understanding of student’s strengths and area of needs in order to develop individualised programs.
Staff: Further develop capabilities of teaching staff in the area of differentiated learning.
Parents/Carers: parents/carers are actively engaged partners in their child’s learning.
Community Partners: community will be more engaged in creating a whole school approach to educating the whole child in all areas.
